Poison Centers and NPPW Overview

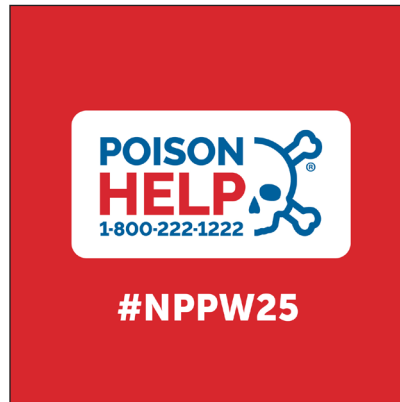

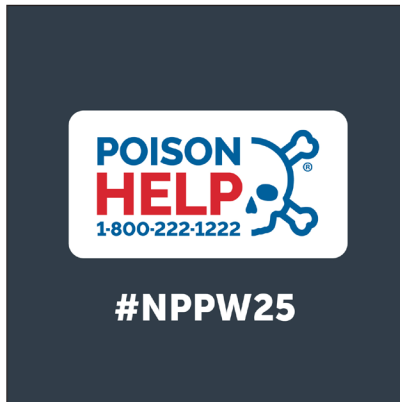

When the unexpected happens, Poison Help is here for you with fast, free treatment advice by calling the Poison Help line (1-800-222-1222) or visiting PoisonHelp.org. Whether it's a question or an emergency, Poison Help can provide life-saving information when people need it most. Calling a poison center is faster and more accurate than an internet search. On average, 90% of poisonings happen in homes in America each year, and more than 70% of people who call Poison Help get the help they need right where they are—saving the cost of a trip to a healthcare professional or hospital.

This year National Poison Prevention Week (NPPW) is March 16-22, 2025.

NPPW brings together the Nation's 54 Poison Centers, community organizations, and government agencies to raise awareness of the risks posed by poisonous substances, precautions people can take to keep their families safe, and using the Poison Help line (1-800-222-1222) and website (PoisonHelp.org) when responding to an emergency. We welcome you to join us in educating the public on the valuable services provided by Poison Centers.

<p>Monday, March 17, 2025</p>	<p>Child with Plant</p> 	<p>Kids are curious and often put things into their mouths, including plants. Did you know that many common houseplants can be toxic? Some common poisonous houseplants include poinsettia, pothos, peace lily, philodendron, and ZZ plants. You can prevent poisonings from houseplants by following these simple tips:</p> <ul style="list-style-type: none"> 🌿 Identify any poisonous plants in your home and remove them if possible. Place remaining poisonous plants up high and out of reach of children. 🌿 Teach your children not to eat plants, berries, or mushrooms. 🌿 Keep plants up high and out of reach of children. <p>If your child eats a plant, call the Poison Help line at 1-800-222-1222. Poison Centers are available 24/7 for fast, free, confidential, expert advice. #NPPW25</p>	<p>Did you know many common houseplants are toxic, like poinsettia, pothos & peace lily? To prevent poisonings identify & remove poisonous plants, teach kids not to eat plants, keep plants up high & out of reach. If your child eats a plant call Poison Help at 1-800-222-1222. #NPPW25</p>	<p>Los niños son curiosos y a menudo se llevan cosas a la boca, incluidas las plantas. ¿Sabía que muchas plantas de interior comunes pueden ser tóxicas? Algunas plantas de interior comunes que son venenosas incluyen la flor de Pascua, el pothos, el lirio de la paz, el filodendro y las plantas ZZ. Puede prevenir los envenenamientos por plantas de interior siguiendo estos sencillos consejos:</p> <ul style="list-style-type: none"> 🌿 Identifique las plantas venenosas de su casa y elimínelas si es posible. Coloque las plantas venenosas restantes en un lugar alto y fuera del alcance de los niños. 🌿 Enseñe a sus hijos a no comer plantas, bayas ni setas. 🌿 Mantenga las plantas en alto y fuera del alcance de los niños. <p>Si su hijo come una planta, llame a la línea Poison Help al 1-800-222-1222. Los Centros de Envenenamiento están disponibles 24 horas al día, 7 días a la semana, para un asesoramiento rápido, gratuito, confidencial y experto. #NPPW25</p>
<p>Tuesday, March 18, 2025 (Morning)</p>	<p>Medicine - Middle of the Night</p> 	<p>Mistakes can happen at any time, especially in the middle of the night when it's dark and you're tired. If you accidentally take the wrong medication, call the Poison Help line right away, 1-800-222-1222. Poison Centers are available 24/7 for fast, free, expert advice. #NPPW25</p>	<p>(Same as English Copy)</p>	<p>Los errores pueden ocurrir en cualquier momento, sobre todo a mitad de la noche, cuando está oscuro y uno está cansado. Si accidentalmente toma un medicamento equivocado, llame inmediatamente a la línea Poison Help al 1-800-222-1222. Los Centros de Envenenamiento están disponibles 24 horas al día, 7 días a la semana, para ofrecer asesoramiento experto rápido y gratuito. #NPPW25</p>

NPPW Council Poster and Video Contest

The National Poison Prevention Week (NPPW) Council helps to raise awareness of poisonings, poison prevention, and the free Poison Help line. Annually, the council sponsors a nationwide contest to engage the community in helping to ensure the safety of children and adults. Students in kindergarten through fourth grade are invited to participate in a poison safety poster showcase, and students in grades five through twelve are invited to participate in a video contest. Posters and videos will be featured on the NPPW Council social media platforms (Facebook and Instagram), and participants are eligible to receive prizes. To access the contest graphics to share on your social media accounts, go to the [Video and Poster Graphics page](#).
